

▶ Welcome to the  
39<sup>th</sup> Annual FPSP of CT  
State Bowl

# MEDALLION AWARD WINNER

Many of the qualities of an outstanding FPSer are obvious: quickness, creativity, knowledgeability of process, diligence and industry. To honor these qualities, the Future Problem Solving Program of Connecticut created the FPSP of CT Team Member Medallion. It differs from other FPS awards in that a fellow team member can only put nominees forward. It gives students an opportunity to honor one of their own.

AND THE WINNER IS.....

ALEXA ODOY

Captain RHAM High School

Coach: Sherri Pelletier

# SCENARIO PERFORMANCE

Scenario Performance is ideally suited to students who prefer oral communication to showcase their creativity.

Scenario Performance encourages students to enlarge ideas, enrich personal style, and predict accurate images of the future. The Performance is not written out in full; it is “told,” and should be more “natural” and “spontaneous” in nature. Whether presented for the camera or in front of a live audience.

# TEAM GIPS COMPETITION

Global Issues Problem Solving (GIPS) is a team or individual activity in which participants research a series of global topics and learn a six-step creative problem solving process. Participants apply their knowledge and the problem solving process to address an imagined situation set in the future, called a “Future Scene.” From there, they complete a “booklet” that asks them to use the process to solve a major issue in the Future Scene.
